GLOBAL FLEXIBLE HIGH GROWTH FUND

A Sub-Fund of Ci Global Investments RIAIF ICAV

July 2026

RISK WEIGHTING:

Conservative | Moderate | **High**

INVESTMENT HORIZON

1-3 years | 3-5 years | **5-7 years** | >7 years

FUND OBJECTIVE AND INVESTMENT PROCESS

The investment objective is to provide investors with long-term capital growth and maintains a high risk profile. This objective is not guaranteed. The portfolio aims to invest in a combination of lower risk assets such as cash and/or cash equivalents, global bonds and higher risk asset classes such as global equities and global property. Depending on the economic cycle, the Fund may increase the exposure to higher risk assets up to 100% in anticipation of and during periods of expansion and similarly reduce the exposure to higher risk assets to as low as 60% in anticipation of and during periods of contraction.

GLOBAL FLEXIBLE HIGH GROWTH FUND

A Sub-Fund of Ci Global Investments RIAIF ICAV

July 2026

GLOSSARY SUMMARY

Annualised performance: Annualised performance show longer term performance rescaled to a 1-year period. Annualised performance is the average return per year over the period. Actual annual figures are available to the investor on request.
Highest and Lowest return: The highest and lowest returns for any one year over the period since inception have been shown.
NAV: The net asset value represents the assets of a Fund less its liabilities.
Alpha: Denoted the outperformance of the fund over the benchmark.
Standard Deviation: The deviation of the return stream relative to its own average.
Max Drawdown: The maximum peak to trough loss suffered by the Fund since inception.
Max Gain: Largest increase in any single month
% Positive Month: The percentage of months since inception where the Fund has delivered positive return.

TOTAL EXPENSE RATIO (TER)

Period: 1 Jul 2025 to 30 Jun 2026

The TER disclosed is for the A Class and reflects the % of the value of the Fund that was incurred as expenses relating to the administration of the Fund over a period of 1 year. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The Current TER may not necessarily be an accurate indication of future TER's, and the TER is estimated until the Fund has sufficient expense history. Calculations are based on actual data where possible and best estimates where actual data is not available. The financial year end TER is 0.91%, calculated over a 12-month period to Ci Global Investments RIAIF ICAV's last financial year end, 31 December 2025.

Obtain the Effective Annual Cost (EAC) estimate before investing by contacting the AIFM at +353 1 2053500. Please note that in most cases where the Financial Services Provider (FSP) is a related party to the portfolio manager, the FSP, the FSP's representative or the distributor may earn additional fees other than those charged by the portfolio manager.

RISK PROFILE: HIGH

Typically, the lower the risk, the lower the potential return and the higher the risk, the higher the potential return. There is no guarantee that returns will be higher when investing in a portfolio with a higher risk profile. The risk profile for this portfolio is rated as high, as it may invest up to 100% in equity securities globally.

CHARACTERISTICS

This is a global multi-asset flexible portfolio, which means that the portfolio may have a maximum equity exposure of up to 100% at all times. The fund will diversify investments across various asset classes providing the opportunity for long-term capital growth.

RISK DEFINITIONS

Compliance Risk
This refers to the risk of not complying with the legislation, regulations, prescribed investment limits and internal policies and procedures by the manager or the portfolio manager.

Concentration Risk
Unit Trusts pool the assets of many investors and use the proceeds to buy a portfolio of securities. There are regulations in place which limit the amount that a unit trust may invest in securities, thereby spreading the risk across securities, asset classes and companies.

Credit Risk
Credit risk arises where an issuer of a non-equity security or a swap is unable to make interest payments or to repay capital. The portfolio may be exposed to credit risk on the counterparties in relation to instruments such as cash, bonds and swaps that are not traded on a recognised exchange. The possibility of the insolvency, bankruptcy or default of a counterparty with which the portfolio trades such instruments, could result in losses to the portfolio.

Currency Risk / Foreign Exchange Risk
This risk is associated with investments that are denominated in foreign currencies. When the foreign currencies fluctuate against the South African Rand, the investments face currency gains or losses.

Inflation Risk
The risk of potential loss in the purchasing power of your investment due to a general increase of consumer prices.

Liquidity Risk
This relates to the ability of the unit trust to trade out of a security held in the portfolio at or near to its fair value. This may impact on liquidity and in the case of foreign securities, the repatriation of funds.

Market Risk
Equity markets are volatile and the price of equities fluctuate based on a number of factors such as changes in the economic climate, general movements in interest rates and the political and social environment which will also affect the value of the securities held in the unit trust, thereby affecting the overall value of the unit trust.

Political Risk
The risk that investment returns could suffer as a result of a country's political changes or instability in the country. Instability could come from changes in the country's government, policy makers or military.

Settlement Risk
Settlement risk arises when a fund is exposed to credit risk on parties with whom it trades securities, and may also bear the risk of settlement default, in particular in relation to debt securities such as bonds, notes and similar debt obligations or instruments

Tax Risk
This risk relates to any change to tax laws or to the interpretation of existing tax laws which has an impact on the manner in which unit trusts are taxed.
